

ANDROID APPLICATION

ShopEdge Software is the leader in providing a highly adaptable, industry focused, ERP solution that streamlines shop floor manufacturing from raw materials to finished goods for the Metal Stamping Industry.

Our Android application gives you complete shop floor control from your existing devices reducing hardware costs. The app makes full use of your device capabilities including the camera and alert notifications, and provides seamless integration with the powerful Android platform. Our mobile application is not just a simple add-on to our powerful ERP application suite, but stands alone as a complete shop floor solution.

The impressive features empower managers and shop floor employees by providing simplified data entry and easy access to decision making metrics. Highlights from the Android app include functionality for Production, Quality, Inventory Management, Shipping, Receiving and Tooling & Equipment.

- Full integration with core ShopEdge ERP functionality using your preferred Android device.
- Increased enterprise-wide communication and productivity.
- Easy to navigate user interface.
- Accessible on Android tablets and mobile phones.
- Increased customer service due to quicker response times.
- Real-time access to workcenter and production information including efficiency, inventory, quality and downtime information.
- Enhanced productivity in Production, Quality, Shipping & Receiving and Tooling & Equipment as users are able to view and easily enter information in the application.
- Maximize your hardware investment with support for a wide range of mobile devices.
